FRAME FOR REBREATHER POSEIDON SE7EN

The frame is made of 316 stainless steel. It allows you to comfortably place the Rebreather in a sitting position. Increases stability during transport and prevents the device from tilting forward and sideways. In addition to the frame, we can mount ballast.

Specification:

- Material: 316 stainless steel
- Sheet thickness: 3.9 mm
- Frame height: 40.3 cm
- Frame width: 30.5 cm
- Weight: 2 kg
